

A Cytotoxic and Anti-inflammatory Campesterol Derivative from Genetically Transformed Hairy Roots of *Lopezia racemosa* Cav. (Onagraceae). Norma Elizabeth Moreno-Anzúrez, Silvia Marquina, **Laura Alvarez, Alejandro Zamilpa**, Patricia Castillo-España, Irene Perea-Arango, Pilar Nicasio Torres, Maribel Herrera-Ruiz, Edgar Rolando Díaz García, Jaime Tortoriello García, and Jesús Arellano-García. *Molecules* 2017, 22, 118; doi:10.3390/molecules22010118.

Acute Hypoglycemic and Antidiabetic Effect of Teuhetenone A Isolated from *Turnera diffusa*. Parra-Naranjo A, Delgado-Montemayor C, Fraga-López A, Castañeda-Corral G, **Salazar-Aranda R, Acevedo-Fernández JJ, Waksman N**. *Molecules*. 2017. 22(4). doi: 10.3390/molecules22040599.

Anti-fungal and Anti-Mycobacterial Activity of Plants of Nuevo Leon, Mexico. Blanca Alicia Alanís Garza, Joel López Arroyo, Gloria González González, Elvira Garza González, **Noemí Waksman de Torres, Ricardo Salazar Aranda**. *Pak. J. Pharm. Sci.* 2017. 30(1): 17-21.

Antihelmintic effect of 2H-chromen-2-one isolated from *Gliricidia sepium* against *Cooperia punctata*. Elke von Son- de Fernex, Miguel Angel Alonso Diaz, Braulio Valles de la Mora, **Pedro Mendoza de Gives, Manases González Cortazar, Alejandro Zamilpa**. *Experimental Parasitology*, 178(2017)1-6.

Anti-Inflammatory Activity of a Polymeric Proanthocyanidin from *Serjania schiedeana*. David Osvaldo Salinas-Sánchez, Enrique Jiménez-Ferrer, Veronica Sánchez-Sánchez, **Alejandro Zamilpa, Manases González-Cortazar**, Jaime Tortoriello. *Molecules* 2017, 22, 863; doi:10.3390/molecules22060863.

Caffeoyl and coumaroyl derivatives from *Acacia cochliacantha* exhibit ovicidal activity against *Haemonchus contortus*. G.F. Castillo-Mitre, **A. Olmedo-Juárez**, R. Rojo-Rubio, **M. González-Cortázar, P. Mendoza- de Gives**, E.E. Hernández-Beteta, **D.E. Reyes-Guerrero, M.E. López-Arellano**, J.F. Vázquez- Armijo, G. Ramírez-Vargas, **A. Zamilpa**. *Journal of Ethnopharmacology* 204 (2017) 125–131.

Casiopaina III-Ea, a copper-containing small molecule, inhibits the in vitro growth of primitive hematopoietic cells from chronic myeloid leukemia. Antonieta Chavez-Gonzalez, Sandra Centeno-Llanos, Dafne Moreno-Lorenzana, Miguel Angel Sandoval-Esquivel, Socrates Aviles-Vazquez, **María Elena Bravo-Gomez, Lena Ruiz-Azuara**, Manuel Ayala-Sanchez, Hector Torres-Martinez, Hector Mayani. *Leukemia Research* 52 (2017) 8-19.

Cytokine and antioxidant gene profiles from peripheral blood mononuclear cells of Pelibuey lambs after *Haemonchus contortus* infection. Estrada-Reyes Z, **López-Arellano ME**, Torres-Acosta F, López-Reyes A, **Lagunas-Martínez A, Mendoza-de-Gives P**, González-Garduño R, Olazarán-Jenkins S, **Reyes-Guerrero D**, Ramírez-Vargas G. *Parasite Immunol.* 2017 Jun;39(6).

Effect of tunable redox behavior of bis chelate substituted 1,10-phenanthroline Cu(II) complexes on its reaction with superoxide anion in DMSO. Toward a simple criterion to identify a SOD-like mechanism. Mayra E. Manzanera-Estrada, Marisela Cruz-Ramírez, Marcos Flores-Alamo, **Lena Ruiz-Azuara, Rodrigo Galindo-Murillo, Juan Carlos García-Ramos, Luis Ortiz Frade**. *Journal: Journal of Inorganic Biochemistry*, (2017) 175, 118-128

Essential Metal-based drugs: Correlation between Redox Potential and Biological Activity of M²⁺ with a N₂O₂ Ligand. Arturo Verduzco-Ramírez, Silvia Graciela Manzanilla-Dávila, María Eugenia Morales-Guillén, **Juan Carlos García-Ramos, Yanis Toledano-Magaña**, Armando Marin-Becerra, Marcos Flores-Álamo, **Luis Antonio Ortiz-Frade**, Luis Fernando Olguín-Contreras and **Lena Ruiz-Azuara**. *J. Mex. Chem. Soc.* (2017), 61(2), 109-119, 2017.

Evaluation of hypotensive and antihypertensive effects of velvet bean (*Mucuna pruriens* L.) hydrolysates. Luis Chel-Guerrero, Saulo Galicia-Martínez, **Juan José Acevedo-Fernández**, **Jesus Santaolalla-Tapia**, and **David Betancur-Ancona** (2017). Journal of Medicinal Food, 20 (1): 37–45. DOI: 10.1089/jmf.2016.0080.

Genotoxic assessment of the copper chelated compounds Casiopeinas: Clues about their mechanisms of action. Jorge Serment-Guerrero, **Maria Elena Bravo-Gomez**, Eric Lara-Rivera, **Lena Ruiz-Azuara**. Journal of Inorganic Biochemistry. (2017) 166 68-75

Hepatodamianol as the hepatoprotective constituent of *Turnera diffusa*. Cecilia Delgado-Montemayor, Liliana Torres-González, **Paula Cordero-Pérez**, **Ricardo Salazar-Aranda**, Jonathan Pérez-Meseguer, **Noemí Waksman de Torres**. Pak. J. Pharm. Sci. Aceptado, Febrero, 2017.

Homoisoflavonoids and Chalcones Isolated from *Haematoxylum campechianum* L., with Spasmolytic Activity. Armando Escobar-Ramos, Carlos Ernesto Lobato-García, **Alejandro Zamilpa**, Abraham Gómez-Rivera, Jaime Tortoriello and **Manasés González-Cortazar**. Molecules 2017, 22, 1405; doi:10.3390/molecules22091405.

In vitro assessment of *Argemone mexicana*, *Taraxacum officinale*, *Ruta chalepensis* and *Tagetes filifolia* against *Haemonchus contortus* nematode eggs and infective (L3) larvae. Gabriela Jasso Díaz, Glafiro Torres Hernández, **Alejandro Zamilpa**, Carlos M. Becerril Pérez, J. Efrén Ramírez Bribiesca, Omar Hernández Mendo, Hussein Sánchez Arroyo, **Manases González Cortazar**, **Pedro Mendoza de Gives**. Microbial Pathogenesis, 109 (2017), 162-168.

In vitro assessment of hepatoprotective agents against damage induced by acetaminophen and CCl₄. Liliana Torres González, **Noemí Waskman de Torres**, Linda Elsa Muñoz Espinosa, Jonathan Pérez Meseguer, **Ricardo Salazar Aranda**, **Paula Cordero Pérez**. BMC Complementary and Alternative Medicine. 2017. 17(1):39. DOI 10.1186/s12906-016-1506-1.

In vitro larvicidal and in vivo anthelmintic effects of *Oxalis tetraphylla* (Oxalidaceae) hydroalcoholic extract against *Haemonchus contortus* in lambs. B.J. González-Cruz, M. Rodríguez-Labastida, **M. González-Cortázar**, **A. Zamilpa**, **M.E. López-Arellano**, **L. Aguilar-Marcelino**, R. González-Garduño, J.F.J. Torres-Acosta, **A. Olmedo-Juárez** and **P. Mendoza-de Gives**. Journal of Helminthology, Page 1 of 8 doi:10.1017/S0022149X17000499.

In vitro larvicidal effect of a hydroalcoholic extract from *Acacia cochliacantha* leaf against ruminant parasitic nematodes. **Agustín Olmedo-Juárez**, Rolando Rojo-Rubio, **Alejandro Zamilpa**, **Pedro Mendoza de Gives**, Javier Arece-García, **María Eugenia López-Arellano**, Elke von Son- de Fernex. Vet Res Commun DOI 10.1007/s11259-017-9687-8.

In vitro renin-angiotensin system inhibition and in vivo antihypertensive activity of peptide fractions from lima bean (*Phaseolus lunatus* L.). Ciau-Solís NA, **Acevedo-Fernández JJ**, **Betancur-Ancona D**. J Sci Food Agric. 2017 Jul 14. doi: 10.1002/jsfa.8543. PMID: 28707727

Isomeric effect on the pharmacokinetic behavior of anticancer Cu(II) mixed chelate complexes: Experimental and Theoretical Approach. **Juan Carlos García-Ramos**, Guadalupe Vértiz-Serrano, Lucia Macías-Rosales, **Rodrigo Galindo-Murillo**, **Yanis Toledano-Magaña**, Juan Pablo Bernal, Fernando Cortés-Guzmán, **Lena Ruiz-Azuara**. Eur. J. Inorg.Chem (2017). 1728-1736 10.1002/ejic.201601199

Mathematical Models Employed to Predict the Timeframe of Intoxications as Interpretation Tools in Forensic Cases. **Quijano-Mateos A**, **Castillo-Alanís LA**, **Bravo-Gómez ME**. J Forensic Toxicol Pharmacol. 2017, 6:1.

MG132 plus apoptosis antigen-1 (APO-1) antibody cooperate to restore p53 activity inducing autophagy and p53-dependent apoptosis in HPV16 E6-expressing keratinocytes. **Lagunas-Martínez A**, García-Villa E, Arellano-Gaytán M, **Contreras-Ochoa CO**, Dimas-González J, **López-Arellano ME**, Madrid-Marina V, Gariglio P. Apoptosis. 2017 Jan;22(1):27-40.

Nanomaterials made of non-toxic metallic sulfides: A systematic review of their potential biomedical applications. Argueta-Figueroa L, Martínez-Álvarez O, Santos J, de la Fuente-Hernández J, **García-Contreras R**, **Acosta.Torres LS**, Arenas-Arrocena MC. Mater Sci Eng C Mater Biol Appl 2017;76: 1305–1315.

Nanomaterials made of non-toxic metallic sulfides: A systematic review of their potential biomedical applications. L. Argueta-Figueroa, O. Martínez-Alvarez, J. Santos-Cruz, **R. Garcia-Contreras**, **LS Acosta-Torres**, J. de la Fuente-Hernández, M.C. Arenas-Arrocena. Materials Science and Engineering C 2017; 76: 1305–1315. <http://dx.doi.org/10.1016/j.msec.2017.02.120>.

New trends for processing of poly(methyl methacrylate) biomaterial for dental prosthodontics. Ma. Concepción Arenas-Arrocena, Liliana Argueta-Figueroa, **García-Contreras R**, Omar Martínez-Álvarez, Berenice Alejandra Camacho-Flores, Pilar Rodríguez-Torres, Javier De La Fuente y **Laura Acosta-Torres**. In book: Acrylics. **Publisher: Intech**, 2017.

Optimization and Validation of a Microscale In Vitro Method to Assess the α -Glucosidase Inhibition Activity. Graciela Granados-Guzmán, Rocío Castro-Ríos, **Noemí Waksman de Torres**, **Ricardo Salazar-Aranda**. Current Analytical Chemistry. Aceptado 2017.

Optimization and validation of two high-throughput methods indicating anti-radical activity. Graciela Granados-Guzmán, Marsela Garza-Tapia, Rocío Castro-Ríos, **Noemí Waksman de Torres**, **Ricardo Salazar-Aranda**. Current Analytical Chemistry. 2017. vol. 13. DOI: 10.2174/1573411013666170118111516.

Overexpression of p53 protein is a marker of poor prognosis in Mexican women with breast cancer. Dimas-González J, Maldonado-Lagunas V, Díaz-Chávez J, **López-Arellano ME**, Muñoz-Camacho J, Terán-Porcayo MA, **Lagunas-Martínez A**. Oncol Rep. 2017 May;37(5):3026-3036.

P53 contributes to the cytotoxic effects induced by antineoplastic and experimental drugs in human glioblastoma cells. **Carla O. Contreras-Ochoa**, **María E. López-Arellano**, Gabriela Roblero-Bartolon, José Díaz-Chávez, Grea Litai Moreno-Banda, Vicente Madrid-Marina, **Alfredo Lagunas-Martínez**. Biochem Biophys Res Commun.

Proinflammatory cytokines are soluble mediators linked with ventricular arrhythmias and contractile dysfunction in a rat model of metabolic syndrome. Evaristo Fernández-Sada, Alejandro Torres-Quintanilla, Christian Silva-Platas, Noemi Garcia, B. Cicero Willis, César Rodríguez-Rodríguez, Erasmo De la Peña, Judith Bernal-Ramírez, Niria Treviño-Saldaña, Yuriana Oropeza-Almazán, Elena Cristina Castillo, Leticia Elizondo-Montemayor, **Karla Carvajal**, **Gerardo Garcia-Rivas**. 2017. Oxidative Medicine and Cellular Longevity. Article ID 7682569

Synergistic effects between a copper-based metal Casiopeína III-ia and cisplatin. Silvia Graciela Davila-Manzanilla, Yeshenia Figueroa-de-Paz, **Carmen Mejía-Vázquez**, **Lena Ruiz-Azuara**. Eur. J. of Med Chem, 129 (2017) 266-274.

Synthesis, Characterization, Theoretical Studies and Biological Activity of Coordination Compounds with Essential Metals Containing N4-donor Ligand 2,9-di(ethylaminomethyl)-1,10-phenanthroline. Luis Felipe Hernández-Ayala, Marcos Flores-Álamo, Sigfrido. Escalante-Tovar,

Rodrigo Galindo-Murillo, Juan Carlos García-Ramos, Jesús García-Valdés, Virginia Gómez-Vidales, Karen Reséndiz-Acevedo, Yanis Toledano-Magaña and Lena Ruiz-Azuara. Inorganica Chimica Acta (2017) accepted.

The Edible Mushroom *Pleurotus djamor* Produces Metabolites with Lethal Activity Against the Parasitic Nematode *Haemonchus contortus*. Jesus Antonio Pineda-Alegria, Jose Ernesto Sanchez-Vazquez, **Manases Gonzalez-Cortazar, Alejandro Zamilpa, Maria Eugenia Lopez-Arellano,** Edgar Josue Cuevas-Padilla, **Pedro Mendoza-de-Gives,** and **Liliana Aguilar-Marcelino.** J Med Food 00 (0) 2017, 1–9.

The mitochondrial apoptotic pathway is induced by Cu(II) antineoplastic compounds (Casiopeínas®) in SK-N-SH neuroblastoma cells after short exposure times. **Juan Carlos García-Ramos, Yanis Toledano-Magaña,** Anllely G Gutiérrez, Adriana Vázquez-Aguirre, Ana L Alonso-Saenz, Virginia Gómez-Vidales, Marcos Flores-Alamo, **Carmen Mejía, Lena Ruiz-Azuara.** BioMetals. BIOM-D-16-00234 (2017) 30:43–58

Water-soluble Ruthenium (II) Chiral Heteroleptic Complexes with Amoebicidal In vitro and In vivo Activity. **Yanis Toledano-Magaña, Juan C. García-Ramos,** Carolina Torres-Gutiérrez, Cristina Vázquez-Gasser, José M. Esquivel-Sánchez, Marcos Flores-Alamo, **Luis Ortiz-Frade, Rodrigo Galindo-Murillo,** Mario Nequiz, Marco Gudiño-Zayas, Juan P. Laclette, Julio C. Carrero and **Lena Ruiz-Azuara.** J.Med.Chem DOI: 10.1021/acs.jmedchem.6b00795, (2017) 60, 899-912
